Dear Sir/ Madam,
Greetings of the day..

As you all know that today's graduates who are a good asset of this country can significantly anchor the situation for a better economy of the country and Enterprising these graduates are most needed in this situation.

But the problem is that today's graduates pursue a degree and not a career. They lack guidance and tools necessary to choose the right career that is aligned to their skills and aspirations and a roadmap to achieving it.

We would like to take this opportunity to bring to the notice of all AICTE Approved institutions that M/S Technnoedz Career Services Pvt. Ltd under its brand name GOALSTREET in association with SUMVN is conducting the NASA Space APPS Challenge 2021 to empower the students.

The Nasa International Space Apps Challenge was such a success in its early years that it has now become an annual event. The purpose of the event is to continue to give people everywhere an unprecedented opportunity to use NASA data to develop meaningful solutions to help to address critical needs applicable to both life in space and on Earth, and that it becomes a global community of individuals excited about collaborating to advance the frontiers of space science and technology.

Benefits to the Students and Institutions:

1. The participants shall get an opportunity to be part of one of the biggest human Endeavor to seed innovation
2. Get connected with innovators around the world, network with mentors and scientists.
3. In the central hackathon, the participants will be given specific Challenges by NASA
4. All participants including those who participate in this hackathon will get a participation certificate.
5. The winners in the hackathon will get a winner's certificate
6. The Host Institution will get a certificate from Nasa Space Apps Challenge for hosting this Event.
7. Name and Logo of Institutions on Space App India Website and branding in Central Hackathon
8. Institutions can use the logo of SPACE APP INDIA in their websites.
